

EDUCATION

Degree/Certificate	Institute/Board	CGPA/Percentage	Year
B.Tech	National Institute of Technology Arunachal Pradesh	8.61 (Current)	2023–27
Senior Secondary	Saint Teresa Senior Secondary School, Reni	95.80%	2021
Secondary	Saraswati Vidya Mandir Secondary School, Perbani	92.0%	2019

EXPERIENCE

- **Trantor Software Pvt. Ltd. | 2-months**

AWS Cloud Intern

– Built and managed cloud infrastructure using AWS services including IAM, EC2, S3, VPC, Elastic Load Balancing (ELB), Auto Scaling, and CloudWatch.

– Deployed secure, scalable, and highly available cloud solutions by following AWS best practices for infrastructure management and monitoring.

– Worked with AWS Global Infrastructure to implement networking, storage, compute, and monitoring solutions through hands-on practical tasks.

Jun. 2026 – Jul. 2026

Chandigarh, India
- **Oil and Natural Gas Corporation Limited (ONGC) | 1-month**

RAG-Based Chat Application Intern -Basic Understanding

– Gained practical understanding of Retrieval-Augmented Generation (RAG) for document-based question answering.

– Worked with Python, FastAPI, FAISS, LLaMA3, and Docling for PDF processing, embeddings, and semantic search.

– Developed a basic RAG-based chat application to retrieve relevant information from PDF documents and generate contextual responses.

Jun. 2025 – Jul. 2025

Vadodara, India

PROJECTS

- **WanderLust**

Node.js, Express.js, MongoDB, Mongoose, Passport.js, EJS, Multer, Joi, Bootstrap

– Implemented secure user authentication and session management using Passport.js.

– Developed CRUD operations for listings and reviews with Joi-based server-side validation.

– Built dynamic and responsive interfaces using EJS and Bootstrap, with image upload functionality using Multer.

– Implemented search and filtering, multi-language support, flash messages, centralized error handling, and RESTful APIs.

2025
- **Real-Time Chat Application**

React.js, Node.js, Express.js, MongoDB, Socket.io, JWT

– Built a MERN-based real-time chat application with secure user authentication and a responsive user interface.

– Implemented JWT-based authentication, protected routes, and real-time messaging using Socket.io.

– Designed MongoDB schemas and developed REST APIs for efficient user and message management.

2025

TECHNICAL SKILLS

- **Languages:** Java, Python, C, JavaScript, SQL

• **Frontend:** HTML, CSS, React.js, Bootstrap, EJS

• **Backend:** Node.js, Express.js

• **Databases:** MongoDB, Mongoose

• **Cloud:** AWS (IAM, EC2, S3, ELB, Auto Scaling, CloudWatch)

• **Tools:** Git, GitHub, VS Code, Jupyter Notebook

CERTIFICATES

- **Mastering Data Structures & Algorithms using C++/C**, Certificate

View

• **Ultimate AWS Certified Cloud Practitioner CLF-C02 2026**, Certificate

View

POSITIONS OF RESPONSIBILITY

- **Member**, Coding Pandas, NIT Arunachal Pradesh

2027 – Present

ACHIEVEMENTS

- **5th Place**, Codathon Hackathon

2025

• **300+ Problems Solved**, LeetCode

2026

• **100+ Problems Solved**, GeeksforGeeks

2026
